Meet the man behind the empire

A man with a dream to build our nation with strong creative ideas, innovative thinking, hard core values, best industrial practices and latest owned equipment's with skilled manpower's to fulfill the requirement of potential customers in the field of transportation, construction and other services in an around the UAE.

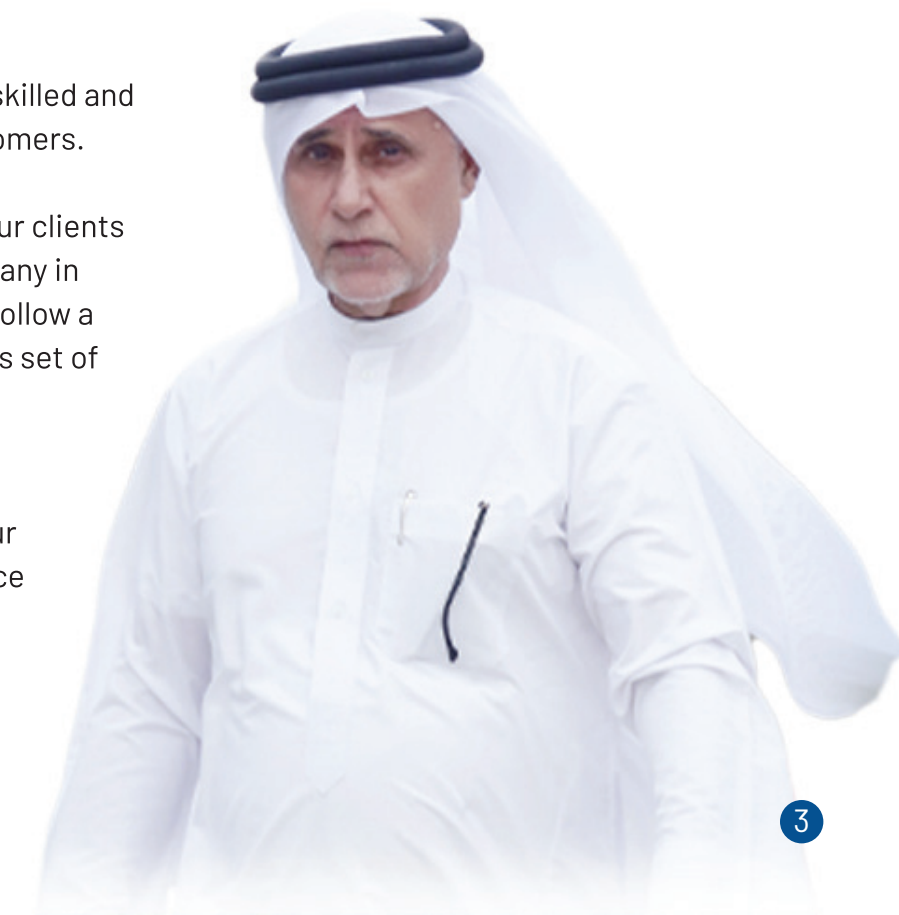

Bin Asheer Transport & General Contracting Establishment is always engaged in identifying the demands of our customers and constantly responding to those demands in a positive manner. This dynamic nature of our company has helped us to journey across time from our humble beginnings in the 1990s to being one of the most sought-after General Contracting and General Transporting companies in Abu Dhabi.

The backbone of the Bin Asheer Group is the team. They are a diverse group of highly skilled and dedicated individuals who deliver the services on a timely basis to our esteemed customers.

Our values of trust and dependability and respect towards the time and resources of our clients have made us perform better for our customers. For being the most dependable company in contracting, our management and workforce had put up a lot of hard work and had to follow a big set of standards and regulations, but it gives us the satisfaction that these rigorous set of standards made our customers achieve the very best of services.

The success of our company is the fruit of the trust the customers have placed in us. We have more goals and dreams to streamline our operations in the future, to serve our valuable customers with more enhanced services, and for this, we are ready to embrace our values more.

Mohamed Asheer Al Mazrouei
Chairman

The Company

“Converting people’s vision into reality”

Established in Abu Dhabi, United Arab Emirates on August 21, 1990, Bin Asheer Transport and General Contracting Establishment is one of the most well-known and reliable businesses in the country.

By providing a customer-centric and superior contracting experience for our customers, Bin Asheer, today, is considered one of the prominent and most trusted companies in this field in the country. The company has its business goals set around its pillars; Management, Manpower, Machinery, Materials, Marketing, Maintenance, and Methodology.

With commitment, discipline and quality of services, the company reached an early milestone in business excellence in 2007. Ever since the goal has always been to put customer service first and strive toward continuous improvement of offerings while staying atop technological advancements.

Our Services

“Three decades of business excellence”

General Transportation

With a modern fleet of transportation vehicles ranging from trailers, low bed trailers, water tankers, dump trucks, mobile cranes, bulldozers, and pickups to several other equipments while also holding an expertise in rig movements, the Bin Asheer group has gained the trust to deliver transportation and raw power equipment based on their project and client demands.

The company understands the importance of having the best range of machinery and transportation equipment on-ground so as to facilitate smooth logistic operations in the project site and/or client locations. With over three decades of experience in the UAE, Bin Asheer has grown its services of general transportation in order to cut costs, ease logistics, and speed up project completion time. With over 100 latest and most powerful machines, Bin Asheer becomes an easy choice for every project.

General Contracting

We are one of the most trusted General Contractors for all major construction, renovation, demolition, road building and other similar projects in the country. The company flaunts its vast array of resources from materials, labour, equipment to expertise, which is key in reducing additional costs and time making it a win-win situation for the clients.

Civil Works

Civil and construction works contribute to the growth of the nation and the team at Bin Asheer always finds satisfaction in contributing to the development of the nation and its people, by becoming the most trustworthy and dependable contractor.

General Maintenance

Apart from General Construction services, the Bin Asheer group also provides excellent and responsible maintenance services for your commercial, office or residential buildings.

With an expert team of engineers, the group undertakes maintenance tasks like rebuilding, renovation, re-painting and extension building works for our customer's properties and delivers them with 100% satisfaction.

Earth Works

Having started work as an Earth Work service provider, the company, today has the know-how, experience and all the modern equipment for services such as excavation, backfilling, cutting and filling - all completed to perfection under staunch timelines
